1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

Minimum Control Measure 3 (MCM 3)
Illicit Discharge Detection and Elimination

Question 12A - MCM 3 - Measurable Goals SWPPP

Town has developed a tracking system for identifying the source of the potential pollutant. The Town has implemented an inspection plan that calls for monthly inspections of identified trouble/problematic areas. The Town has fostered its relationship with SPLASH a volunteer organization that organizes, educates and participates in volunteer efforts to clean up the bay and low lying areas close or at the waterline. Through this partnership the Town is able to expand both public involvement and public participation in identifying sources of pollution, cleaning up potential pollutants and is able to expand the use of the Town's hotlines.

Question 12B - MCM 3 - Observations Effectiveness of SWPPP

Through the partnership with SPLASH the Town has held cleanup events for the public at large and conducts routine, usually daily, boat trips to the shoreline of remote areas to inspect and if necessary clear and clean the effected areas. Through the diligence of the Town workforce and the help of the volunteer organization SPLASH and the general public, the Town has identified and cured 9 illicit discharges and/or potential pollutants

Minimum Control Measure 3 (MCM 3)

Question 12F - MCM 3 - Planned Stormwater Activities

The Town is retrofitting all its storm drains to include the proper filtration and separation of contaminant bodies. This work has been on going; The Town of Hempstead will install more this coming year.

Question 12F - MCM 3 (cont'd)

Through the partnership with SPLASH the Town has held cleanup events for the public at large and conducts routine, usually daily, boat trips to the shoreline of remote areas to inspect and if necessary clear and clean the effected areas. The Town continues to expand relationship between SPALSH and itself to further both public awareness and public participation with both detecting and preventing and removing the source of any contaminant and its source.

Minimum Control Measure 4 (MCM 4)
Construction Stormwater Runoff Control

Question 7A- MCM 4 - Measurable goals

All SWPPP's received were reviewed and all were returned with comments. All of the returns reflected the standards as outlined in the NYS Standards. The Town returns all submitted SWPPP's within ten (10) business days of receipt and is available to engineers and designers for the latest websites and/or links so that they may comply with the standards.
