Town of Hempstead

A local law to amend Section 86-12, of Chapter 86 of the Code of the Town of Hempstead, entitled "Building Construction Administration," in relation to the issuance of building permits and the regulation of construction within the Town of Hempstead.

Introduced by:

Be it enacted by the Town Board of the Town of Hempstead as follows:

Section 1. Section 86-12 of Chapter 86 of the code of the town of Hempstead, as constituted by ordinance number fifty five of nineteen hundred sixty-two, adopted September twenty-fifth, nineteen hundred sixty-two, hereby is amended insofar as to add subsections 86-12-G (1) and (2), which shall henceforth read as follows:

Chapter 86
Building and Construction Administration

* * *

§ 86-12-G

1. Legislative Intent.

It has been established that variations in the building permit application process between municipalities can be an impediment to the advancement of deploying solar energy on Long Island. For the benefit of the public and to promote the most efficient use of energy resources, the Town of Hempstead is a partner community in the NY Solar Smart Program, working to reduce impediments to solar installation and to enable solar market growth. The Long Island Power Authority's "solar energy system fast track permit application" is a standardized permit for use by all Long Island municipalities that simplifies and streamlines the permitting of small-scale photovoltaic systems and increases consistency and transparency in permitting. It is vital that the Town of Hempstead participate in that process.

2. Residential Solar Photovoltaic System.

A building permit application for a Residential Solar Photovoltaic System shall require the submission of a fast track permit application, based on the Long Island Power Authority's "solar energy system fast track permit application" pursuant to the New York State Energy Research and Development Authority's Cleaner Greener Long Island Sustainability Plan.

Section 2. This local law shall become effective immediately upon filing with the secretary of state.
