1. DEFINITIONS

The following words and expressions used in this Agreement will have the following meaning:

"IP Camera Solution" means the equipment and system software listed in **Schedule I** to this Agreement;

"location" means those premises defined in **Schedule II** to this Agreement;

"workhours" means working hours for the purpose of this Agreement as specified in **Schedule II** to this agreement.

2. TERMS OF AGREEMENT

- a. This Agreement will be for a term of not more than one year (pro rata for less than 12 months) and will not be subject to tacit renewal.
- b. The Contractor will notify the Client two months before expiration date of the maintenance Agreement for the renewal of the maintenance services for the forthcoming year.
- c. The Client will notify the Contractor one month before the Hardware Maintenance Agreement is scheduled to expire of its intention to renew the maintenance services for the forth-coming year.
- d. The agreement will be renewed on the same terms and conditions unless otherwise agreed, in writing, by the parties.

3. MAINTENANCE SERVICES

- a. Equipment maintenance services are to be rendered at the locations designated by the Client (Schedule II), but the Contractor may remove from Client's premises any complete item of equipment for the purposes of providing the service.
- b. Where an item of equipment is removed for the purposes stated in paragraph (a) above, the Contractor will be responsible for any loss or damage caused to the equipment during its removal, transport and during the time the equipment is in its custody.

4.2. **Problem reporting and resolution**

Reporting of problems may be via telephone, fax, e-mail, postal service or any other agreed means.

The Contractor will establish the severity of a reported Hardware problem jointly with the Client according to the following definitions:

- i. **catastrophic or major problem** - system is down, user is unable to function or complete work. This includes a non-isolated, consistently reproducible problem resulting in system crash. This covers problems which must be corrected but do not prevent progress from being made, and/or problems which do not require immediate attention and includes-
 - I. isolated, consistently reproducible problem resulting in a system crash;
 - II. failure of a significant function of the equipment.
- ii. **minor problem** - a problem which does not have a major impact on operation or development, or for which an adequate workaround exists, and includes requests for add-ons.
- iii. **non-reproducible error** - a reported error which Contractor and/or Client cannot reproduce.

The Contractor will report back to the Client within four hours of being notified by the Client of a problem. The Contractor will inform the Client in his report of the severity level assigned to the problem.

In the event of a catastrophic or major problem, a technician will respond within 4 business hours, and troubleshoot the problem remotely (via Genetec Software client, or IP Camera GUI) to resolve the problem. If required, a technician will report on-site with suitable replacement equipment, within 24 business hours of the notification.

Note well: There may arise certain outages that, because of their critical nature, must be addressed beyond the normal working hours. If necessary, repairs will be made in these circumstances outside the normal working hours.

Based on the severity level of the problem, the Contractor will provide the Client with either:

- a solution,
- a workaround,
- a report stating that further research is required, or
- a report stating that the problem cannot be reproduced, and will not be fixed.

The Contractor may re-classify the problem after consultation with the Client as more information becomes available.

After the assessment of the severity level of the problem, the IP Camera hardware (or replacement equipment whose configuration should be at least as per **Schedule I**) should be up and running within the time frame given below:

Severity Level	After the initial call back
Catastrophic or Major	Within 24 Hours
Minor	Within 24 Hours
Non-reproducible	Within 24 Hours

The Contractor will keep the Client informed of the problem report resolution progress by phone, fax, or e-mail.

In case of a catastrophic problem or a major problem and where a replacement device (whose configuration should be at least as per **Schedule I**) has been provided, the Contractor will restore the system and associated software. The Contractor will assist other parties in making the whole system operational (e.g. helping in restoration of connectivity, etc.) The replacement equipment will remain in custody of the Client even after the termination of this contract until the IP Video Surveillance system has been repaired and reinstalled on the Client's premises. The Contractor will continue to intervene on the replacement equipment as and when required at no additional cost as if it was intervening on the original equipment.

5. CUSTOMER OBLIGATIONS

The Client will give full access to the location and equipment to enable the Contractor to provide the maintenance services and the Client will make available such information, facilities and services as are reasonable for the performance of the obligations under this Agreement. The Contractor will comply with the Client's security and confidentiality rules.

Any request for the maintenance of additional equipment which are not covered under the normal maintenance services as listed per **Schedule I**, will first be submitted in writing by the Client to the Contractor. Such additional equipment will be deemed to have been added to the list of "IP Camera Solution" and the additional equipment will be subject to the terms and conditions of this Agreement.
- d. The Contractor may, subject to the agreement of the Client and where applicable, prorate the Hardware Maintenance Agreement fees so that maintenance services for all equipment are renewable on the same date, even if all the equipment were not delivered or purchased on the same date.

- e. The notice of termination of the agreement will be in writing and will be by registered letter with acknowledgment of receipt.

10. ACKNOWLEDGEMENT

- a. Each party acknowledges that it has read this Agreement, understands it and agrees to be bound by its terms and further agrees that it is the complete and exclusive statement of the Agreement among the parties, which supersedes and merges all prior proposals, understandings and all other agreements oral and written among the parties relating to the subject matter of this Agreement.
